ABOUT IMARASOKO

ImaraSoko™, also ImaraSoko Consulting is a business and management consulting firm and a trading name of Imarasoko Business Solutions Limited, which is a registered private company with incorporation number 156853631.

ImaraSoko previously trading as Leerfort Institue was founded in 2019 with the purpose of providing business administrative support, supplies and services, since then the firm has evolved to become one amongst the most inspiring and reputed upcoming brand in the field of business consultancy and services.

At ImaraSoko™ the pursuit of uniqueness is our highest and untiring motivation, because at the core, we highly believe that utility to be fully utilized and appreciated it must have a touch that creates a difference and that's our story in nutshell "We are a people who always look for ways that our products' and services' utility will drive and foster strangely satisfying uniqueness to our clients' market identities"

Our clients are both individuals and corporate entities, servicing, partnering and collaborating in diverse ways but with one vision "To Communicate the Way".

To Communicate the Way

VISION STATEMENT

To communicate the way toward building strategic solutions for cornerstone challenges in business growth and compliance.

MISSION STATEMENT

Our mission that defines our very existence is partnering with problem solvers in navigating the landscape of business regulatory and compliance, collaborating in strategic analysis, development and growth of markets, and helping in intelligence-driven management of projects, finance and people.

In respect to our mission-vision, we have made an internal pledge to commit ourselves to providing the best and tailored management advisory and services that ensure operational efficiency and timely results.

OUR CORE VALUES

ImaraSoko™ is anchored on its five precious values, which are: Intelligence, Smart-work, Resourcefulness, Integrity and Teamwork, in order to deliver our consulting aspiration of Communicating the Way.

Intelligence first and foremost, we always strive to attain and maintain the aim that right and true in conceiving solutions.

Smart-Work, with smartened works from sharp imaginative thinking and technological innovations that deliver more from less.

Resourcefulness passionate to always maximizing the means available even in very resources-constrained environments.

Integrity, unwavering in our commitment to honesty, transparency, and ethical behavior in fostering quality relationships.

Teamwork, our working together harnesses the collective intelligence in tackling complex tasks and in achieving remarkable results.

ABOUT OUR INTEGRATED MANAGEMENT SYSTEM

Mashine WorkERP™ Integrated Management System is an enterprise-wide management SaaS system that is designed to streamline and optimize various business operations.

With WorkERP, businesses can centralize their data, making it easier to manage purchases, sales projects, track employee performance, and automate repetitive tasks.

Through WorkERP Integrated Management Systems, we provide systems for managing business and institutional activities to enhance efficiency in production.

The WorkERP system has the capability to manage various processes within a business/institution and integrate information from different departments, processing it to work together towards achieving the strategic goals of the respective institution.

This system is developed and continuously improved based on the essential needs of the specific client, and so far, it is capable of managing, maintaining, and processing business information for Production, Transportation, Product Sales, and various Service Provisions Entities

Kupitia WorkERP Integrated Management Systems, tunatoa mifumo ya usimamiaji wa shughuri za kibiashara na kitaasisi ili kuleta ufanisi katika uzalishaji.

Mfumo wa WorkERP una uwezo wa kusimamia michakato tofauti ndani ya biashara/taasisi na kuziunganisha taarifa kutoka idara tofauti na kuzichakata ili zifanye kazi kwa upamoja kufikia malengo ya kimkakati ya taasisi husika.

Mfumo huu umetengenezwa na unatengenezwa kulingana na mahitaji muhimu ya mteja husika, na hadi sasa unauwezo wa kutumika kusimamia, kutunza na kuchakakata taarifa za biashara za Uzalishaji, Usafirishaji, Uuzaji Bidhaa na Utoaji Huduma Mbali Mbali.
